

Combining these elements, NursePro Plus, can significantly reduce expenses associated with PICC and Midline placements for your facility, while enhancing patient safety and quality of care. By choosing NursePro Plus as a health care service provider, your facility will see a reduction in the following:

### EXPENSE REDUCTIONS

- Cost to transport patients
- Administrative management
- Staff coordination time
- Hospital expenditures
- Safety and potential liability issues in patient care

### Additional Benefits

- Training expenses on IV medication protocol
- Reduction in IV infection rates thru clinical support and training
- Reduction in IV medication therapy errors thru INS standards compliance
- Enhanced patient and nursing safety from reduced movement of patients
- Decreased patient infection exposures

NursePro Plus can help facilities reduce their expense burdens by providing a balanced solution.

### NursePro Plus the Balanced Solution

The bottom line is: **patient transport is both costly and can pose multiple safety concerns.** By changing the current method of care your facility can meet multiple goals: **patient safety and a reduction in care expenses.**
